Be Smart. Be Safe. Be a Cyber Hero!

The internet is a powerful tool for learning, connecting, shopping, and staying in touch with family and friends.

A few smart habits can help keep you safe and confident online.

Simple Ways to Stay Safe Online

- **Pause before you click:** Take a moment before opening links or sending information.
- **Protect your passwords:** Create strong passphrases and never share them.
- **Check website addresses:** Fake links and websites are a common trap.
- **Be careful with online payments:** Real companies never ask for gift cards or passwords.
- **Trust your instincts:** If something feels fishy, it probably is.

Build Your Digital Confidence

Learn how to:

- Spot online scams
- Create strong passwords
- Protect your money online
- Use the internet safely every day
